

## PREFAB BENEFITS – BUILT FOR OFFSITE EFFICIENCY

### No Specialist Trades Required

- Easy-to-install panels — no tilers or wet trades needed
- Reduces dependency on subcontractor availability

### Rapid Installation

- Panels click together on-site or in-factory with minimal tools
- No drying time or waterproofing layers required
- Speeds up production and handover timelines

### Lightweight for Transport

- Panels are significantly lighter than traditional materials
- Simplifies logistics and reduces transport emissions

### Streamlined Production

- Seamless integration with modular PODs, mobile homes, and factory-built units
- Compatible with panelised systems and batch production
- Minimal site waste

### Damage-Resistant in Transit

- Rigid, high-pressure laminate surface stands up to delivery and installation handling

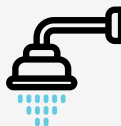

### Waterproof & Hygienic

- 100% waterproof Aqualock system
- Easy-to-clean surface ideal for prefabricated bathrooms and kitchens
- Supports hygiene standards in mobile, healthcare, or rental units

## IDEAL FOR:

**Tiny Houses  
& Mobile  
Homes**

**PODs &  
Prefabricated  
Bathrooms**

**Volumetric  
Construction &  
Modular Housing**
